COURSE PLAN

FIRST: BASIC INFORMATION

College	
College	: Prince Abdullah bin Ghazi Faculty of Communication & Information Technology
Department	: Computer Science
Course	
Course Title	: Cloud Computing
Course Code	: 30801361
Credit Hours	: 3
Prerequisite	: Visual Programming for Smart Devices
Instructor	
Name	: Asma'a Khtoom
Office No.	: BAU Academy -2'd Floor
Tel (Ext)	: 0776227273
E-mail	: asmakhtoom@bau.edu.jo
Text Book	
Title	: HCIA-Cloud Computing Learning Guide, V4.0, Huawei's certification HCIA-Cloud Computing.
References	

1- Essentials of Cloud Computing, K. Chandrasekaran, International Standard Book Number-13: 978-1-4822-0544-2 (eBook - PDF).

SECOND: PROFESSIONAL INFORMATION

COURSE DESCRIPTION

Topics covered in this course include Cloud Computing concepts, Cloud Computing models, Introduction to compute virtualization, Network basics for Cloud Computing, Storage basics for Cloud Computing, Virtualization features and Cloud Computing trends.

COURSE OBJECTIVES

The objective of this course is:

1. To understand cloud computing concept.
2. To understand compute virtualization concept.
3. To understand the applications of cloud computing.
4. To understand Huawei's FusionSphere virtualization solution

COURSE LEARNING OUTCOMES

1) Knowledge and Understanding

By the end of this course the student should be able to:

1. Describe what cloud computing is.
2. List a few use cases of cloud computing.
3. Be able to describe what virtualization is.
4. Recognize how the virtualization is applied on cloud computing.

5. Describe basic concepts of network and storage used in cloud computing.
6. Be able to use Huawei's FusionSphere virtualization solution.

2) Professional Skills
   1. Building cloud solution and virtual systems using Huawei's FusionSphere

3) Competences (Transferable skill and attributes)
   1. Transfer practical and subject specific skills.
   2. Working as part of a team.

COURSE SYLLABUS

Week	Course Topic	Notes
Week 1	A Brief Introduction to Cloud Computing	
Week 2	Cloud Computing Models	
Week 3	Introduction to Compute Virtualization	
Week 4	Compute Virtualization Types	
Week 5	Introduction to KVM	
Week 6	Network Architecture for Virtualization	
Week 7	Physical and Virtual Network for Virtualization	
Week 8	-	**Midterm Exam**
Week 9	Storage Architecture for Virtualization	
Week 10	Centralized Storage vs. Distributed Storage	
Week 11	Virtualized Storage vs. Non-Virtualized Storage	
Week 12	Introduction to Cluster Features	
Week 13	Introduction to Virtualization Features	
Week 14	Introduction to Huawei's FusionCompute	
Week 15	Introduction to the Features of Huawei's Virtualization Product	
Week 16	-	**Final Exam**

COURSE LEARNING RESOURCES

This course will be taught using available resources including: lectures, data show and materials uploaded to the e-learning system.

ONLINE RESOURCES

ASSESSMANT TOOLS

ASSESSMENT TOOLS	%
Quizzes	5
Homework	5
Mid Exam	40
Final Exam	50
TOTAL MARKS	100

THIRD: COURSE RULES

ATTENDANCE RULES

Attendance and participation are extremely important, and the usual University rules will apply. Attendance will be recorded for each class. Absence of 10% will result in a first written warning. Absence of 15% of the course will result in a second warning. Absence of 20% or more will result in forfeiting the course and the student will not be permitted to attend the final examination. Should a student encounter any special circumstances (i.e. medical or personal), he/she is encouraged to discuss this with the instructor and written proof will be required to delete any absences from his/her attendance records.

GRADING SYSTEM

Example:

90 – 100	**A**
86 – 89	**A-**
80 – 85	**B+**
76 – 79	**B**
70 – 75	**B-**
66 – 69	**C+**
60 – 65	**C**
57 – 59	**C-**
52 – 56	**D+**
48 – 51	**D**
40 – 47	**D-**
Less than 40	**F**

REMARKS

Use of Mobile Devices, Laptops, etc. During Class, unexpected noises and movement automatically divert and capture people's attention, which means you are affecting everyone's learning experience if your cell phone, laptop, etc. makes noise or is visually distracting during class. For this reason, students are required to turn off their mobile devices and close their laptops during class.

Academic Integrity. Students, who copy assignments, allow assignments to be copied, or cheat on tests will fail the assignment or test on the first offense, and may fail the entire course on the second. Plagiarism means using words, ideas, or arguments from another person or source without citation. Cite all sources consulted to any extent (including material from the internet), whether or not assigned and whether or not quoted directly.
